Re: BLM #UTU 70057

Amendment to Notice Covering 1995-1996 Season

We plan no new ground disturbance. We will install a pilot mill. The mill will consist of:

Hammer Mill: 1 ton per hour, 3' x 3' Installed at various locations outside portal on pad, 30' flume to transport slurry.

32' Sluice box

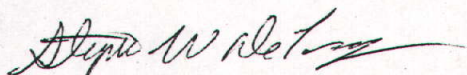

10' Holding Tank

17' Water Filter, Pump to move water; Closed Water System

Drill and shoot in mine process

Waste will be used to improve pad or will be returned to mine in unused drifts.

Thank You,

Stephen W. DeLong  
Rainbow Mine
